

BRAND GUIDELINES

01. About

Purpose

The purpose for this website is to make collaborating locally and internationally in the creative world available and stress free to everyone. We highlight young and emerging creatives by categorizing them into their main line of work to make connecting with like-minded people simpler and to broaden your scope of creatives.

Audience

Our primary audience would be young creatives looking to get their foot in the door. This will include but won't be limited to clothing designers, milliners, graphic designers, photographers, videographers, models, dancers, illustrators, , stage designers, and those whose mediums are niche.

Who

The guidelines here are for our partners and inter-company work to ensure that content and brand assets are respected across all forms of media.

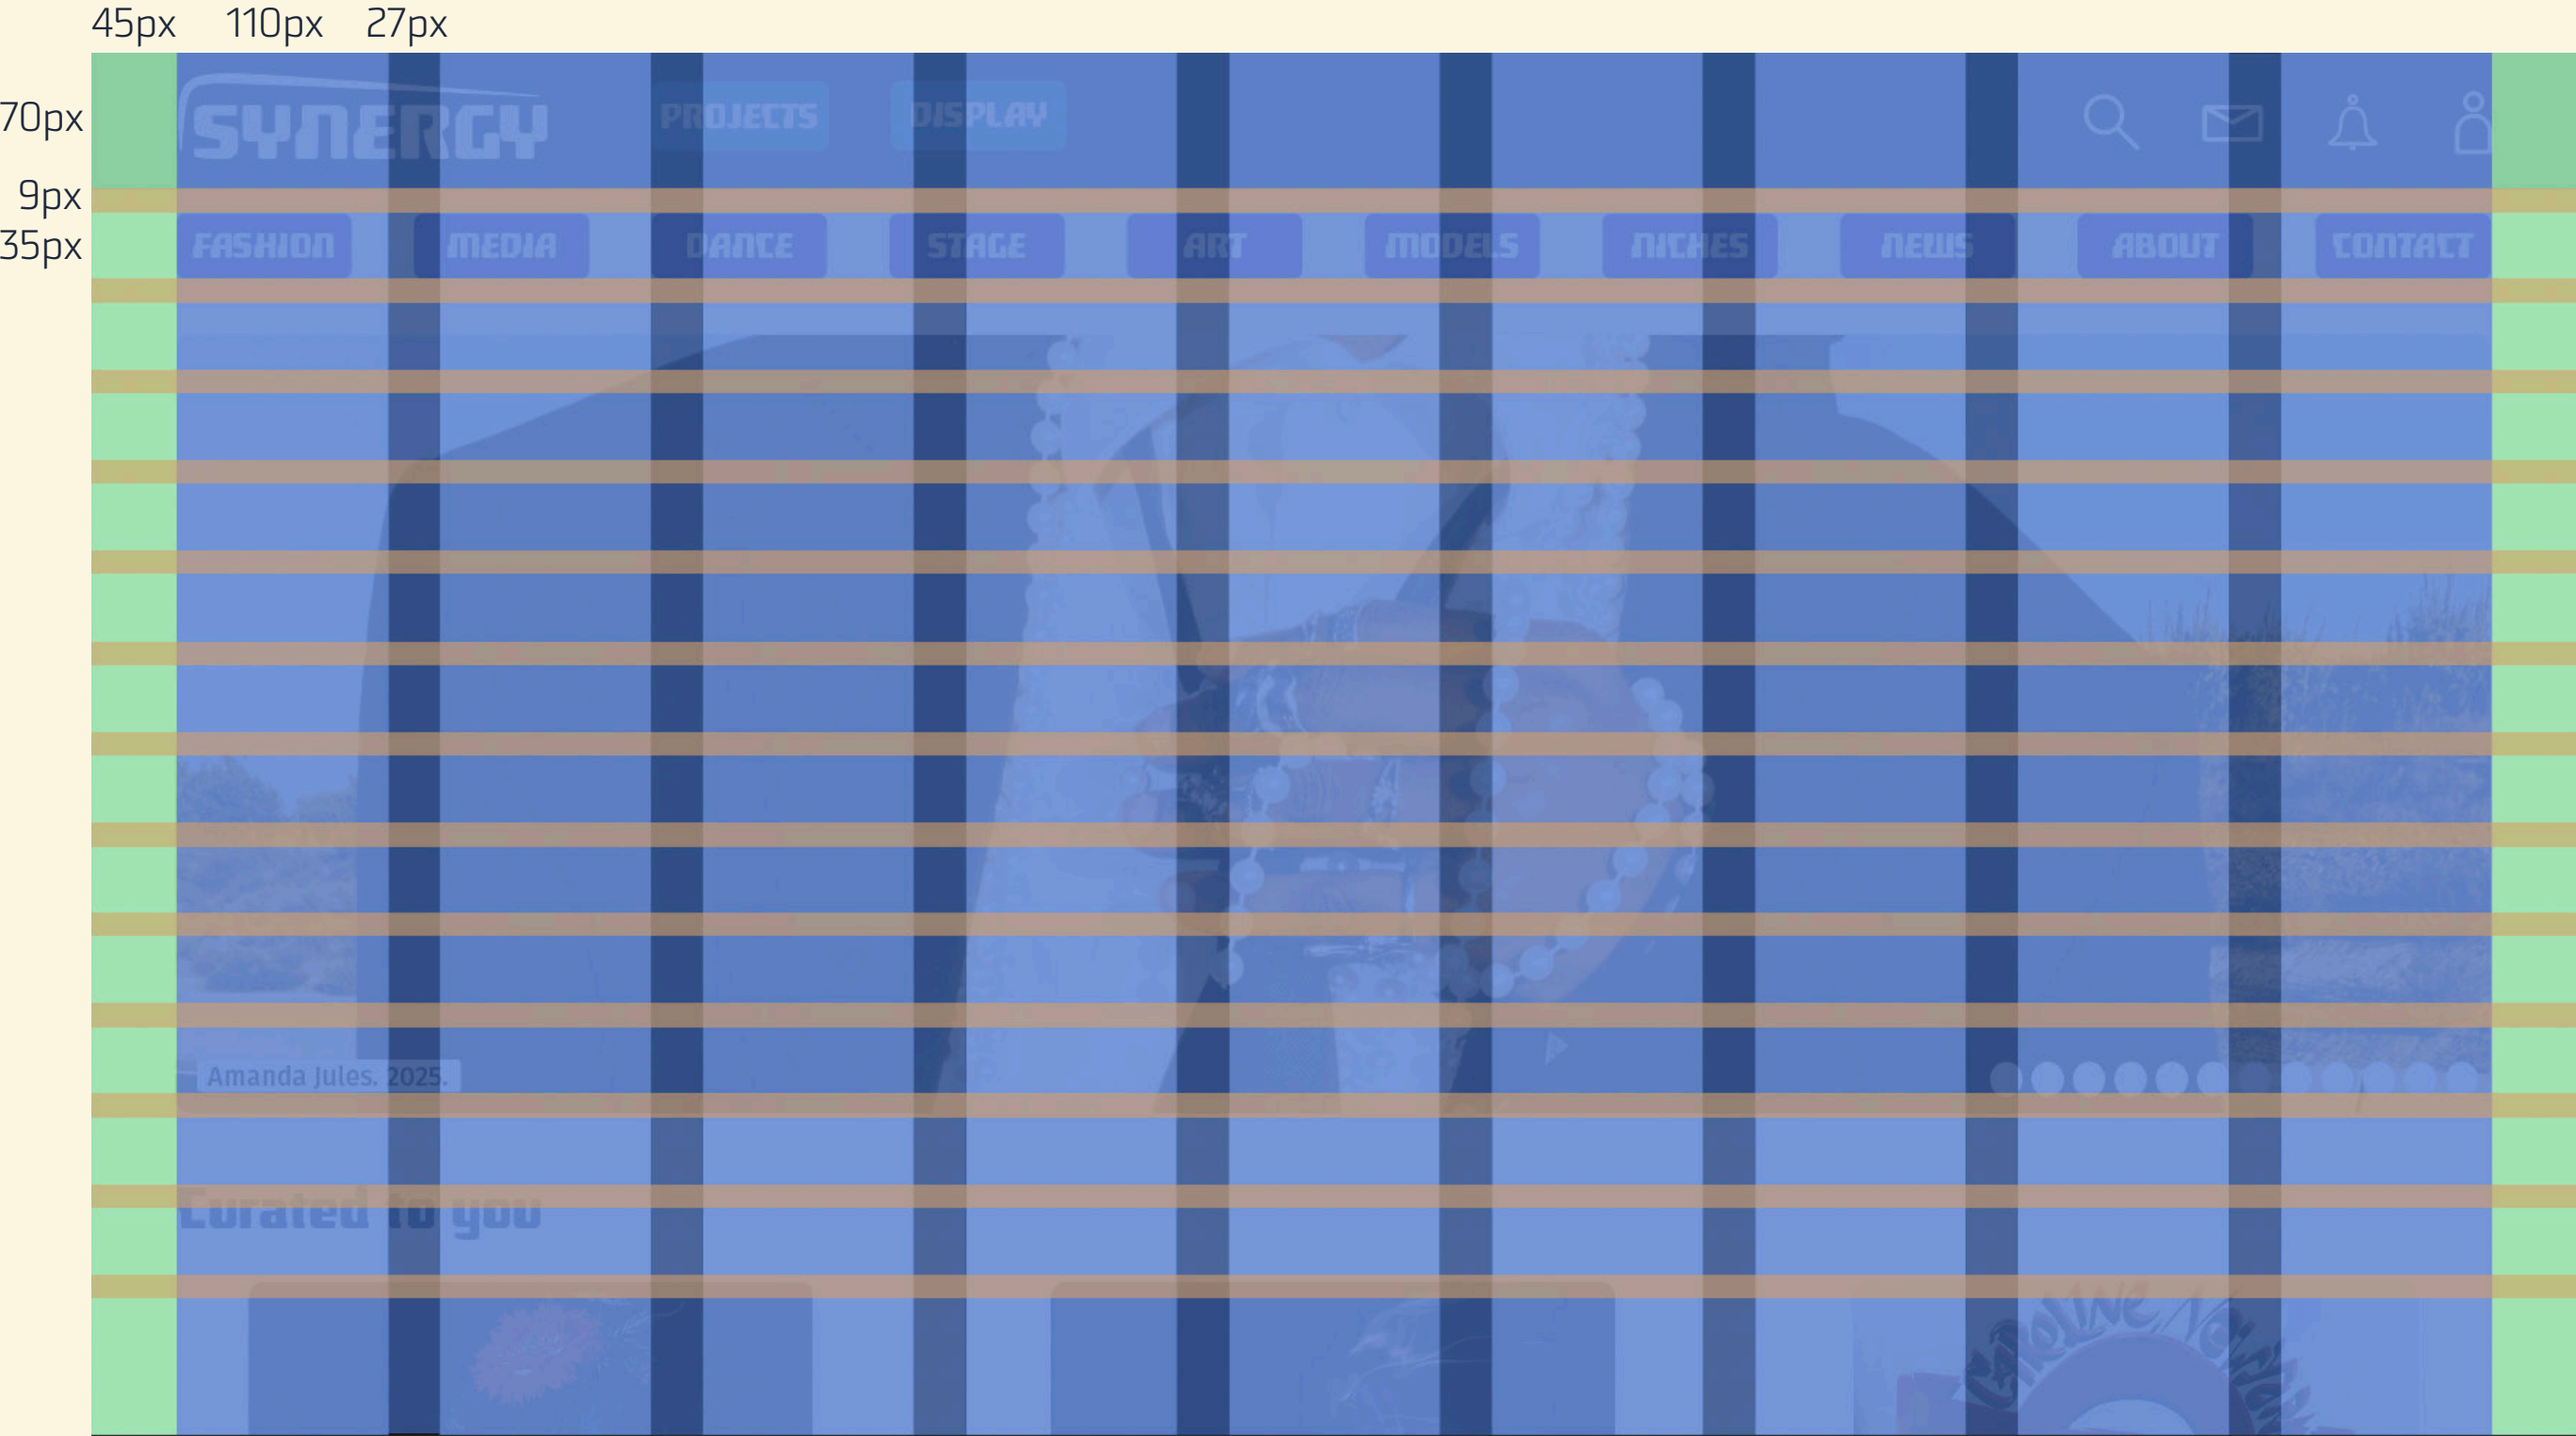

Why

The guidelines here are for our partners and inter-company work to ensure that content and brand assets are respected across all forms of media. These approved guides will maintain our brands integrity and eliminate doubt for those working with our assets.

02. Site's Grid

Grids

The desktop grid is uses columns of 110px with gutters of 27px. 13 rows of 35px with 9px gutters all within margins of 45px.

03. Color Palette

Color palette for the design, featuring a variety of shades of blue, green, and yellow.

The palette includes a range of colors from light pastels to deep, saturated tones.

These colors are used throughout the design to create a cohesive and visually appealing look.

The palette is designed to be versatile and adaptable to different design contexts.

It provides a solid foundation for the overall color scheme of the project.

The colors are carefully selected to ensure they work well together and are easy on the eye.

This palette is a key element of the design, helping to define the brand's visual identity.

It is a valuable tool for maintaining consistency across all design materials.

The palette is presented in a clear and organized manner, making it easy to reference.

It is a comprehensive guide to the colors used in the design, ensuring a unified aesthetic.

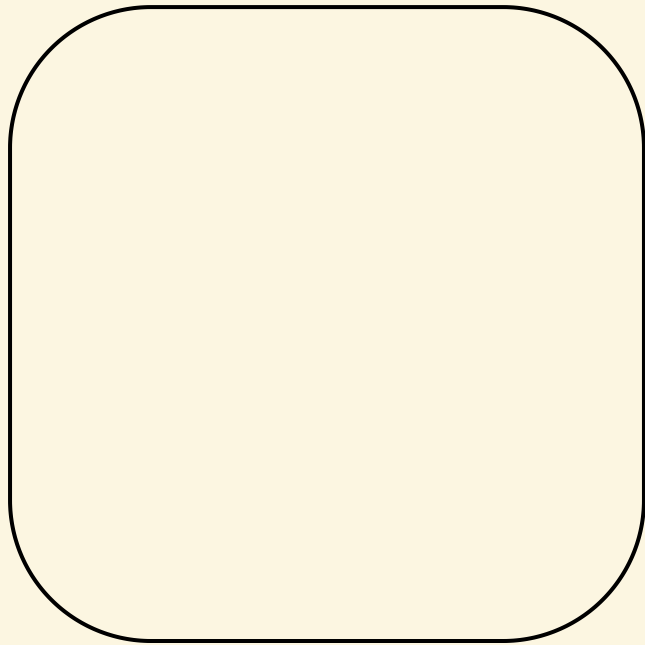

The palette is a testament to the designer's attention to detail and commitment to quality.

It is a key component of the design process, helping to bring the vision to life.

The palette is a reflection of the brand's values and personality, creating a strong visual connection.

It is a valuable asset for any designer, providing a clear and concise guide to the color scheme.

05. Logo Treatment

Our Logotype

In most cases, aim to use the navy blue and ivory color combinations. If the project requires a black and white, use this example. Never use the logotype with a border around it, this is merely a color combination example. Never use the logotype without the arch around the brand name.

Logo Color Combinations Dos and Donts

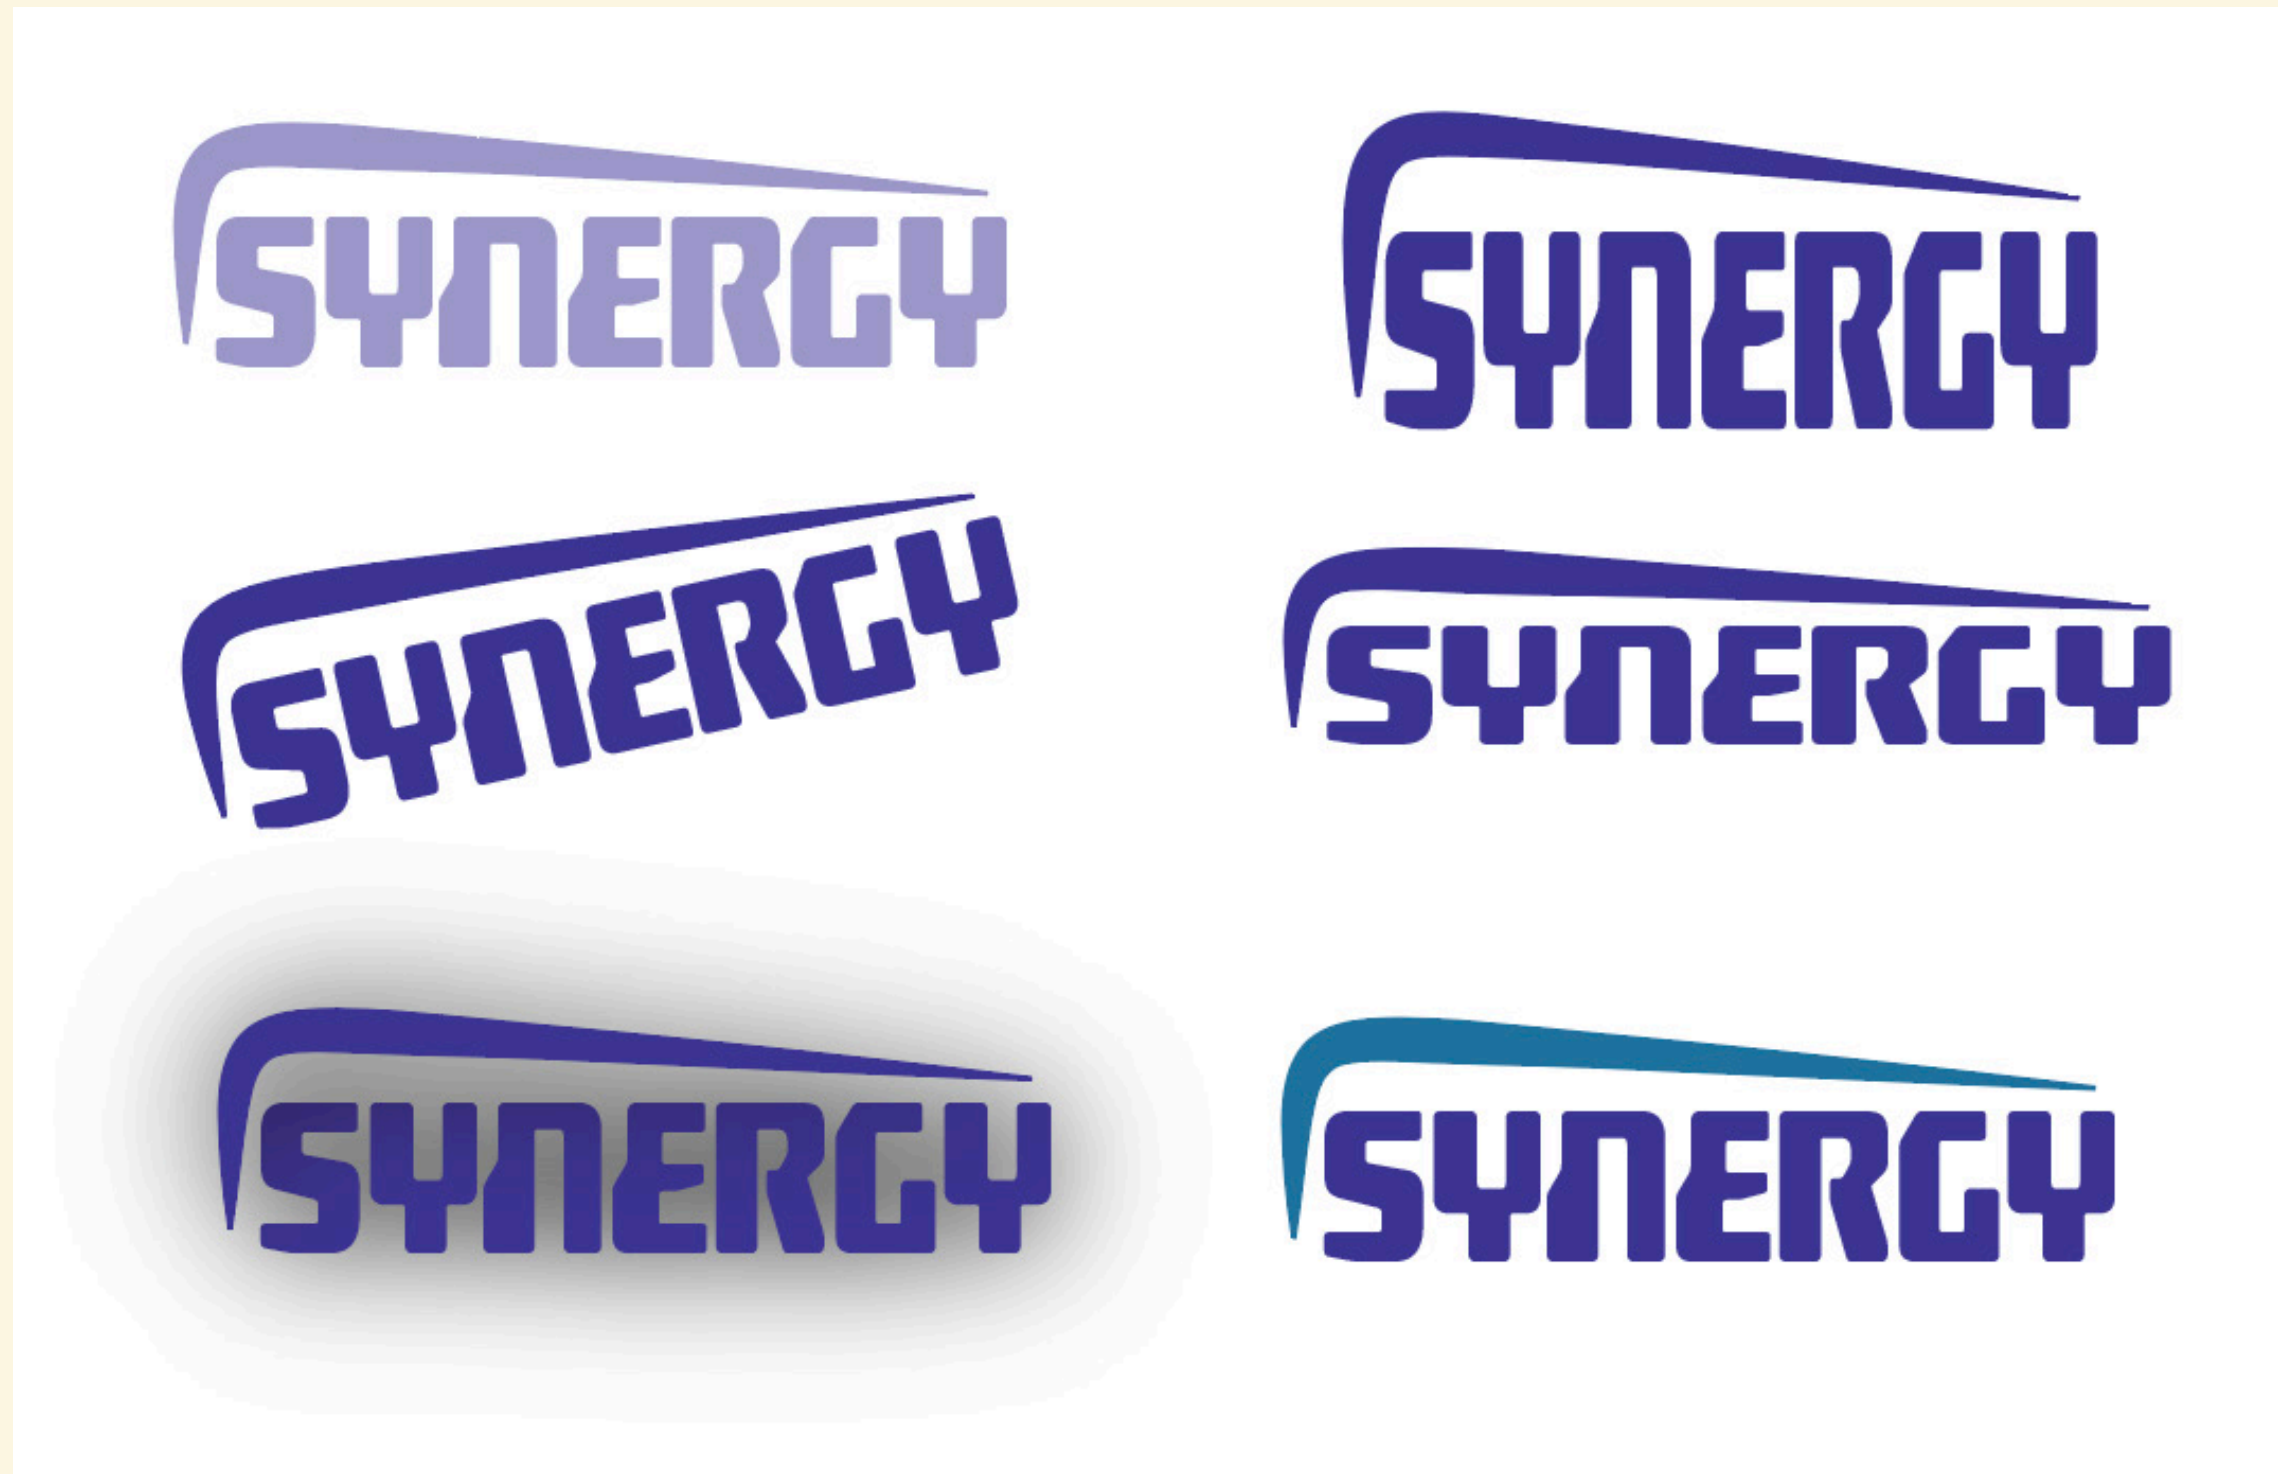

Do use these appropriate and legible color combinations when it comes to the logotype.

Don't use the crossed out color combinations as they hinder illegibility.

Logo Donts

Refer to these example to know what not to do with our logotype.

06. Spacing

Logotype Spacing

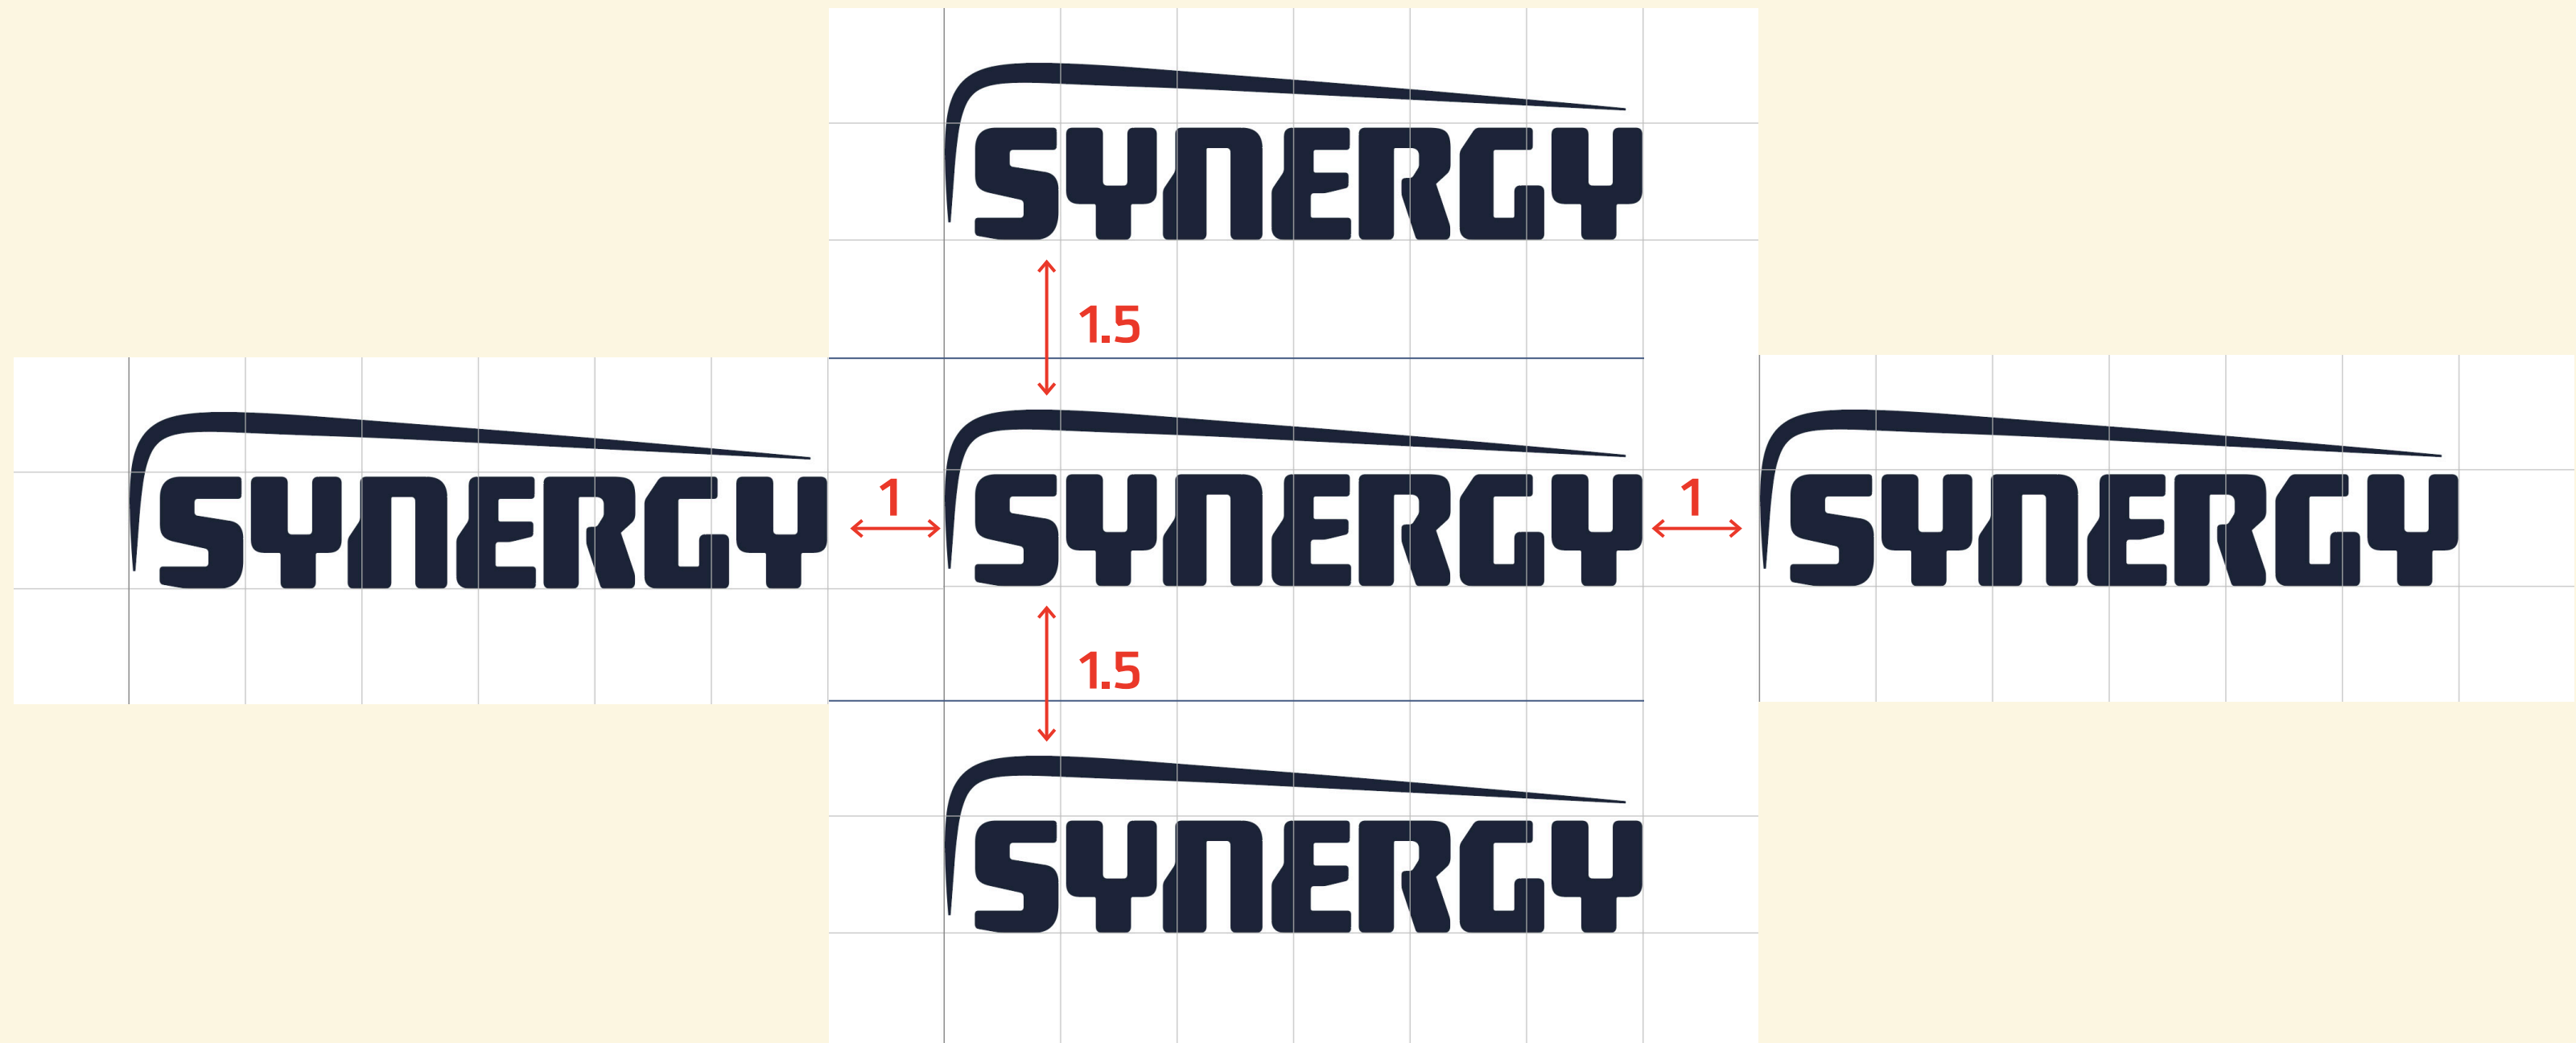

Our logotype is best sized with a 6:1.5 ratio.

Logotype Spacing

To space our logotype near other elements and/or partner logos, refer to this spacing system.

Horizontal spacing is only be 1 square, while vertical spacing is 1.5 squares

07. Site Elements and Asset Rules

Site Elements

For our desktop the pixel size is 192px by 44px. Refrain from enlarging or minimizing the site element.
