

- **Description:** This will be a website that highlights local and emerging creatives who are categorized into their main focus to make connecting with like-minded creatives simpler and to broaden your scope of creatives. This will make collaborating on projects and finding people who specialize in certain mediums stress free and will be a win-win for everyone.
- **Purpose Statement:** The purpose for this website is to make networking locally and internationally in the creative world accessible and stress free to everyone. This network will include creatives who are clothing designers, milliners, graphic designers, photographers, videographers, models, dancers, illustrators, embroiderers, stage designers, and those whose mediums are more niche.
- **Primary User Persona:**
 - Amanda Jules
 - Woman
 - Creative college student
 - Age: Early 20s
 - Lives in Queens
 - Interested in a career in the creative sector
 - Works to pay for college and spends their free time creating their personal work
 - Enjoys traveling, film and history
 - Either lives with family or friends
- **Secondary User Persona:**
 - Louis Portnoy
 - Magazine Publisher
 - Man
 - Age: 36
 - Lives in Manhattan
 - Looking for young skilled creatives
- **Top Five Functions of Product:**
 - 1) Provide individuals the ability to showcase their portfolios and work to the internet
 - 2) Provide mechanism to email creatives to inquire for a commission or their work
 - 3) Provide an organized list of creatives categorized into separate lines of work
 - 4) Provide a "Following" list to view recent work from creatives that the user appreciates
 - 5) Create a tool to share a creatives account via copying a link
- **Measures of Success:**
 - 1) App that allows users to use our service on the go will develop in early 2026
 - 2) Users enter their information and website will identify nearby creatives by boroughs or towns
 - 3) Users specify in their descriptions who they collaborated with, meaning networks are being created
